No. 167 - 2 September 2025

To all Presidents of the FISM member societies
and Delegates in the General Assembly

Dear President, dear Delegate, dear Friend in Magic,

It's a pleasure to keep you informed on our latest developments and projects.

FISM WORLD MAGIC DAY

Today we are celebrating the fifth annual FISM World Magic Day, a moment that honours the art of magic and its power to stimulate imagination and transform perception.

As announced at the General Assembly in Turin on 15 July 2025, Magic Christian has been entrusted with preparing a proposal to make this day more distinctive and to consider the appropriateness of changing its date, which will be subject to the Assembly's approval.

In the meantime, I would like to invite you all to mark this event by sharing on your social media channels any information about your World Magic Day activities. Thanks to your messages, whether transmitted directly or via the official FISM accounts on Facebook, Instagram, TikTok and Bilibili, the spirit of magic will resonate around the world. Let us turn this **FISM World Magic Day** into a festival of creativity and inspiration, and continue to strengthen our global community through the joy and wonder of magic.

FISM ACADEMY

Headquarters

As officially presented at the FISM General Assembly in Turin on 15 July 2025, we are proud to announce that the **FISM Academy Headquarters** is hosted at the Museo della Magia in Cherasco (Italy), thanks to an agreement with the *Fondazione del Museo*.

This partnership underscores FISM's dedication to promoting culture and excellence in the art of magic. Furthermore, the Academy will thus be provided with a base that will also serve as a venue for magic-related initiatives and research. These will be able to rely on the museum's library of over 25,000 books.

Management

We are pleased to inform you that Mr. Peter Din, former Vice-President of FISM, has been appointed Managing Director of the FISM Academy. During his tenure as Vice-President, Mr. Din played a central role in the development and implementation of this project, and his long-standing commitment to FISM will now continue in his new position.
